Business Insights & Recommendations

Key Insights

- ✓ Travel insurance generated the highest premium revenue, followed by health.
- ✓ Approximately 58% of all policies are currently active.
- ✓ Policy issuance remained stable throughout the analysis period, with a slight drop in final month due to partial data.
- ✓ The overall loss ratio is 2.83×, indicating claims significantly exceed premium collected across all policies.
- ✓ Rejected claims (43.5%) exceed settled claims (33.9%), highlighting a high rejection rate.
- ✓ Claims consistently exceeded premium revenue throughout the period, indicating persistent underwriting losses.

Business Recommendations:

- ✓ Revise premium pricing across all policy types, with Health and travel as top priority.
- ✓ Audit a sample of rejected claims to confirm the 43.5% rejection rate is justified, not excessive.
- ✓ Monitor loss ratio on a monthly basis to track whether pricing changes actually improve it.
- ✓ Base pricing on policy-level risk factors, not demographics age and gender show little effect here.
- ✓ Investigate the ~42% inactive policy base for renewal or reactivation opportunities.
